HOLAS WILL NOT RETURN TO CAPITAL

r of Russia Decides to Spend Winter at Sorskoe Selo.

ES CLAMOR FOR FREEDOM

n Delegations Are Working to Se- e Co-Operation of Workingmen's ganizations to Assist Them in De- nds for Self-Government.

Petersburg, Nov. 15.—Emperor olas and the Russian court will ome to St. Petersburg this winter. ort time ago it was announced the emperor was about to return he winter palace in an annex of h Count Witte has installed him- but his majesty has now decided o from Peterhoff back to the Sar- -Selo, where he has been living for ost two years with the exception of last months spent at Peterhoff. Ex- on the occasion of the ceremony blessing the waters last January, n the emperor narrowly escaped th, owing to a mysterious charge grape being fired into the direction the imperial party by a saluting bat- y, the emperor has not stepped in- e the winter palace for over eigh- n months. His decision not to me to the capital is regarded as un- rtunate, not only for its moral effect t because it keeps him surrounded court influences and out of close, mediate touch with Count Witte who the present time should have daily almost hourly conferences with emperor.

Members of his majesty's entourage ve strongly advised against the em- or being in St. Petersburg when the tional assembly meets, as well as account of the danger of popular sorders of the capital this winter, calling to the emperor's mind not thout effect, the fatal results of Louis VI agreeing to leave Varsailles and lace himself at the mercy of the popu. ce of Paris in 1789.

The Polish delegation here are work- g to secure the co-operation of the Liberals, Social Democrats and work- men organizations in other general po. itical strike in aid of the Poles' battle for autonomy, but thus far, while they have met with much sympathy, no action has been taken for their assist- ance.

Count Witte, whom the deputation saw was extremely firm, declaring em- phatically that the government would do nothing for Poland under compul- sion, and that martial law could not be abolished until the separatist move- ment comes.

The premier declares that the most of the Poles could expect in addition to the rights granted under the reform manifesto was a separate general zem- stvo for Poland and municipal self- government.

The Polish delegates say that over 7,000 Pole prisoners are languishing in the jails of Warsaw. The radical press today is not sparing in the denuncia- tion of the government's action in put- ting all Poland under martial law, declaring that it is a plain violation of the spirit of the reform manifesto.

It is evident that the government has recovered its nerve, and is determined to use severe measures if necessary to restore order.

The agitation throughout the coun- try at the exceptional powers conferred on the aides-de-camp of the emperor who will be dispatched to the central provinces where agrarian disorders are spreading is proof of this. At the same time half a dozen governors, in- cluding the governors of Odessa, Tomsk and Kalsan, willfully failed to prevent disorders, have been summar- ily dismissed at Count Witte's institu- tion.

The clergy with other classes con- tinue their intercessions for the Cron- stadt mutineers, 151 of whom are re- ported to have been condemned to death. A hundred orthodox priests at a meeting held at the residence of the Metropolitan Antonius, formulated and dispatched an appeal for mercy to the emperor.

A number of army officers indignant at the action of Lieutenant Froloff, of the imperial horse guard, who recently sabred Professor Tarle, of the Poly- technic institute, have joined in a pro- posal to boycott Froloff and all the other officers of the horse guards un- less the lieutenant clears himself of the charge or resigns within a month.

DISTRIBUTION OF SEEDS.

The Government Will Give Away Pack- ages Aggregating 38,000,000.

Wasnington, Nov. 15.—The annual distribution of vegetable and flower seeds by the department of agricul- ture will begin on Dec. 1, and before planting time it is expected the entire amount, aggregating 38,000 packages will be in the hands of the people in all sections of the country. Congress for the past several years has appropriat- ed $290,000 for this purpose the propor- tion of the amount is used for the ex- periment work and other kindred mat- ters. The bulk of the thirty-eight mil- lion packages is subject to the order of senators and representatives for distri- bution among their constituents, the secretary of agriculture serving one- fifth of the entire amount to supply the statistical crops correspondents, the weather bureau and for other purposes. The country has been divided into six sections with especial regard to cli- mate and special seeds wil be sent only to those localities in which their propaganda and believed to be espe- cially adapted. In addition to those of the vegetable and flower variety, department sends out quantities of cot- ton, forag eand field seeds to locali- ties to which they are best suited and from which it is thought good results may be obtained.

WILL IMMIGRATE TO AMERICA.

Russian Jews Will Come to This Coun- try to Escape Persecutions.

New York, Nov. 15.—Jacob H. Schieff at the annual meeting of the educational alliance last night referred to the conditions in Russia and also spoke of the Jewish race. He said:

"The turmoil in Russia must have some serious consequences to the Unit. ed Statess. It will mean an immense immigration and this country must keep its doors wide open to allow those who flee from that country to enter. The Jew has a large and generous heart for those afflicted, and will aid great hospitals and like institutions. But when it comes for a Jew to con- tribute for the head, for education, nothing good can be said. There are many races of the Jew, five or six at least.

"The Jew races cross in this country and they will unite in making the great- est Jew that ever existed, the Ameri- can Jew. If we want this, we must do our duty to that race and in the end the world will get the benefit."

To Decide Canal Question.

Washington, Nov. 15.—The question whether the Panama canal shall be a sea level or a lock canal will have to be decided within a very few days. All the members of the board of con- sulting engineers have returned to the city of Washington and expect to meet every day of this week until the final conclusion has been reached. Such the secretary has been observed dur- ing the meeting that it is as yet im- possible to make a definite statement as to the result. After it has been de- cided which type of canal to adopt, a short report will be made indicating briefly its nature, but not going into any details. By that time the leave of absence of most of the foreign del- egates to the board will have expired and they will leave for their respective countries during the last days of this month.

SECOND SESSION OF LABOR FEDERATION

Many Important Questions Be fore National Body.

FIGHT AGAINST CHILD LABOR

An Assessment is Levied on All Mem- bers of American Federation of La- bor to Assist the International Ty- pographical Union in Its Fight.

Pittsburg, Nov. 15.—The second day's session of the American Federa. tion of Labor convention was called to order promptly at 9 o'clock by Pres- ident Gompers. He called John Mitchell, second vice president, to the chair and James Duncan, first vice president, read the annual report of the executive council. It gave in detail many of the points covered in the re- ports of the president, secretary and treasurer. Two meetings of the coun- cil were held during the year, the last occurring in this city Saturday night. The jurisdictional disputes were again brought up and recommendations made, most of which have been com- plied with.

The coppersmiths made application for a charter, but it was denied and the organization was urged to affiliate with the Amalgamated Sheet Metal Workers' International alliance. Ar- rangements have been made for the consolidation of the two organizations.

In the matter of the protection of children the executive council had bills introduced in the legislatures of many states, particularly in the south, prohibiting the employment of chil- dren in mills, factories, mines and in- dustrial establishments. Some pro- gress was made, but results during the year were not entirely satisfactory.

President Gombers was authorized to enlists the assistance of other or- ganizations in securing the passage of legislation in all states prohibiting the employment of child labor.

It was decided that in the future the executive council shall not interfere with disputes between labor organiza- tions unless the unions involved have exhausted all means to bring about an adjustment of the differences.

An assessment of 1 cent a member a week, for a period of four weeks was levied on the entire membership of the Federation for the benefit of the Inter. national Typographical union in its ef- forts to establish an eight-hour work day in the job and commercial print- ing establishments in the United States and Canada.

The Typographical union has levied a substantial assessment for that pur- pose, and all organizations are urged to render assistance to the printers in their effort to establish the eight-hour day by Jan. 1, 1906.

Chattanooga, Tenn., Nov. 15.—The Schubert theatrical company of New York has leased for a term of ten years the new opera house being erect- ed in this city on Eleventh street. WANTED TO LYNCH WHITE MAN

Little Negro Girl Was Said to Have Been Assaulted in Atlanta.

Atlanta, Nov. 15.—Quick work by the mounted police of Atlanta saved R. Z. Justice a white man, accused of as- saulting a negro girl of 5 years, from being lynched in Atlanta by an enraged mob of blacks, numbering in the neigh- borhood of 1,000.

R. Z. Justice was taken to the police station and was there seen by the mother of the girl, who immediately stated that the wrong man had been arrested, and that he was guilty of no crime. Chief Jennings ordered the release of the prisoner and of his broth- er, John E. Justice, 14 years old, who had been taken in charge by the police as a precautionary measure.

R. Z. Justice is 23 years old. He is a farmer, living 5 miles north of Deca- tur, in DeKalb county, who came to Atlanta yesterday for the purpose of selling a bale of cotton. The crime was committee yesterday morning about 9:30 o'clock, Arah Beavers, the 5-year- old child of Fletcher Beavers, who is employed in a dairy, being the victim.

The assault was made at 14 Green street, at the home of an aunt of the child, Lula Beavers.

GRAND JURY INVESTIGATING.

Death of Young Student in Ohio Being Probed by Court.

Mount Vernon, O., Nov. 15.—The grand jury will probably not reach its investigation of the death of young Stuart Pierson for three or four days. Following their consideration of the Pierson case the grand jury will, it is said, investigate the robbery of J. A. McGavery, of Oklahoma, who was found bound and gaged in his room in Bexley hall at Kenyon college yester- day. He had been robbed of money and a ring, but robbery, it is believed was not the motive for the crime.

It is generally thought that it was McGavery who gave the information to the coroner which led to the verdict in the Pierson case, and that the out- rage upon him was in retaliation. This belief is strengthened by a note found pinned to the student's clothes which read:

"This will do this time, but if we come again, it will be worse."

They Claim That She Died From Heart Disease.

HER BRAINS WERE BEATEN OUT

Neighbor Woman Who Shrouded the Corpse Makes Discoveries—Officials Will Exhume Body—Husband and Son Are Culprits.

Huntsville, Ala., Nov. 15.—J. F. Jack- son, a farmer of Taylorsville, has been arrested for the murder of his wife, Mrs. Mary Jackson, who died in a mys- terious manner on last Friday morn- ing.

His son, Charles Jackson, and an- other young man, Charles Webster, have been arrested as Jackson's ac- complices.

The woman died on Friday and it was given out in the neighborhood that she died of heart failure.

After the funeral the woman who dressed Mrs. Jackson after death, said that one of the woman's legs was broken and that her brains had been beaten out. This statement resulted in the swearing out of warrants against Jackson, his son and Charles Webster.

The county coroner and solicitor will exhume the body of Mrs. Jackson and hold an inquest today.

GREENE AND GAYNOR TRIAL.

Federal Court in Session at Savannah to Try Famous Case.

Savannah, Ga., Nov. 15.—The feder- al court for the southern district of Georgia convened here today. Judge Emony Speer presiding. It is expect- ed that the Greene and Gaynor case will come up, the noted prisoners now being in jail here awaiting trial.

Captain Oberlin M. Carter, who was convicted by courtmartial of swind- ling the government out of $2,700,000 in connection with the harbor con- tracts, awarded to Greene and Gay- nor, will not be a witness in the trial of the contractors, Special Assistant Attorney General Marion Erwin, who arrived today, so stating.

There are a number of important points in connection with the case that there are to be settled before trial can be entered upon. It is thought very likely that the case will be called and a continuance ordered.

Against Freight Rate Litigation.

Washington, Nov. 15.—An earnest protest was made to the president to day against the proposed railroad freight rate legislation. The protest was filed by representatives of the five great labor organizations connected with the railroads, the engineers, fire men, conductors, switchmen and the trainmen. The members of the dele gation which called on the president, represented the several organizations. They pointed out to him that railroad rate legislation logically meant the lowering of rates. This, they con tended, will be followed by a lessen ing of the earning power of the rail roads and consequently by reduction eventually of the wages of railroad em ployes.

Citizens' Association Meets.

NEW WATER RATES HAVE BEEN FIXED

After Tedious Task, Council Has Determined Upon Price.

INCREASE IN MINIMUM RATE

As Far as the Council Could See, the Rate Was Adjusted to Suit All Classes and Conditions, and Fixed in Proportion to Water Consumed.

The bone of contention for several months between the citizens of Gainesville and the City Council has been the question of an impartial water rate. It was claimed by many that the rates which have been in effect ever since the water plant existed were unequal, the "big fellow" having an advantage over the small consumer. This condition of affairs resulted in the city placing a number of water meters and readjusting the rate, which is now complete and approved by the council, as follows.

Non-meter rates, minimum rate—For dwelling houses, $12 per year; for restaurants, $12 per yer; barber shops, $12 per year; stores and offices, from one to three persons, $6 per year; from four to six persons, $8 per year; more than six persons, $10 per year; laundries, for first tub, $16, for each additional tub, $6 per year; soda fountains, $20 per year. In houses of less than $200 value, two or more families may use water from same faucet upon payment of 50 cents per month, each family.

Meter rates—Minimum quarterly rate of $3, payable in advance, with an allowance of 24,000 gallons. All over 24,000 gallons and up to 40,000 gallons, 12½ cents per 1,000; over 40,000 and less than 100,000 gallons, 10 cents per 1,000 gallons; over 100,000 gallons, eight cents per 1,000 gallons. All steam plants, manufacturing plants, railroad tanks, etc., will be given a special rate upon application.

The above rates will go into effect on January 1, 1906, and Rule 16 of the council provides that any violation of these rules shall subject the party or parties offending to have water cut off, and a fee of $5 will be required for turning same on again.

PAVING ORDINANCE PASSED.

West Liberty Street Will be Paved to University Grounds.

At an adjourned meeting of the City Council, held Monday evening, an ordinance providing for the paving of West Liberty street from West Main to the University grounds, was passed. The ordinance provides flint rock as the material to be used, and also provides that the street shall be widened from a given point to a uniform width the entire distance.

No action will be taken towards beginning the work of paving until about December 15.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

He declares that his banishment from Turkey was caused by the revolutionary ideas propounded by him.

High Price Predicted for Cotton.

Atlanta, Nov. 15.—Fifteen-cent cotton is now the slogan of the Southern Cotton association. The recent report of the United States department of agriculture strongly supports the information which the association has gathered from its many correspondents throughout the south, and all of this goes to show that the maximum crop this year will be 10,000,000 bales. Based upon these facts, President Harvie Jordan declares the remainder of the crop should not be sold for less than 15 cents. This, he states, will put the entire crop into the hands of the spinners at an average price of 12 cents.

SCROFULA AN AWFUL INHERITANCE

While it is true that Scrofula may be acquired under certain conditions, it is usually inherited. Parents who are related by the ties of blood, or who have a consumptive tendency, or family blood taint of any character, are sure to transmit it to their children in the form of Scrofula. Swollen glands, brittle bones, poor digestion, weak eyes, Catarrh, emaciated bodies and general weak constitutions are the principal ways in which the disease is manifested. The blood has been diseased from birth, and being in this condition cannot properly nourish the body and Scrofula is the result. A hereditary disease like this can only be reached, by a constitutional remedy and nothing equals S. S. S. as a cure for it. It cleanses and strengthens the deteriorated blood, drives out all scrofulous and tubercular deposits, and there is a gradual but sure return to health. S. S. S. supplies to the anaemic, lifeless blood the properties necessary to build back to strong, robust health, and does this gently and so thoroughly that no signs of the disease are ever seen in after life. Being purely vegetable S. S. S. is the best remedy for Scrofula; its harmless but healing ingredients enter into the circulation and replace wax-like, bloodless faces with vigorous strength glowing with health. Book with information about Scrofula and medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

I inherited Scrofula, and about seven years ago suffered intensely from it. Tried every doctor available at great expense, but grew rapidly worse; in fact, had given up all hope of being cured, and as a dying man will grasp at a straw, I was persuaded by my brother, much against my will, to try S. S. S. After taking six bottles, I felt a wonderful change for the better. I continued to take it for about six months, taking in all about fifteen bottles, which entirely cured me.

MID-WINTER FAIR OPENED AT TAMPA

Florida's Greatest State Exposition Now in Full Blast.

THIRTY COUNTIES ARE THERE

Governor Broward Conducted the Opening Exercises—Grand Parades Were Features—Reception at the Tampa Bay Hotel a Brilliant Affair.

Tampa, November 15.—The great Florida State Fair opened in this city today with a record-breaking attendance, in spite of which everybody was well taken care of, owing to the systematic work carried on by the Bureau of Information. No trouble will be experienced in this regard through the fair. Governor Broward conducted the opening exercises, assisted by many of the prominent men of Florida and other States. Features of the day were two grand parades in the morning and a grand reception and banquet to the newspaper editors and legislators of Florida, held at the famous Tampa Bay Hotel. Over thirty counties are represented by exhibits at the Fair, a larger number than have ever been represented at a Southern State Fair before.

The horse races at the big Tampa Fair begin Monday and the racing will be the finest ever seen in the South. Over 200 horses are now quartered at the race track, many coming from the Northern States to spend the winter. None but fast races are on the race program, such races as 2:07 pace, 2:10 trot, free-for-all and others similarly as fast being arranged for. Tampa is the only city in the South filling races of this class during the present year. Among the fast horses at the meet is William McKinley, brought with a large string from Chicago. William McKinley, having a mile record of 2:04¼, will not be allowed to enter in the regular races, but will be sent against time with running mates. It is expected that he will come near the two-minute mark, owing to the fast condition of the track.

AT THE AUDITORIUM.

"A Case of Suspension" Was Well Rendered and Well Received.

The three-act comedy drama, "A Case of Suspension," which was presented by the pupils of the high school at the auditorium of the University Graded and High School Wednesday night for the benefit of the school football team, was fairly well attended, and the play was rendered in such a clever manner that it was greatly enjoyed.

The caste was made up entirely of students of the high school, and the manner and efficiency in which they performed their respective parts brought forth a great deal of applause. Quite a neat sum was realized, and those who attended felt that that they had "got their money's worth."

Herb W. Edwards Injured.

Herb W. Edwards of Des Moines, Iowa, got a fall on an icy walk last winter, spraining his wrist and bruising his knees. "The next day," he says, "they were so sore and stiff I was afraid I would have to stay in bed, but I rubbed them well with Chamberlain's Pain Balm, and after a few applications all soreness had disappeared. For sale by all druggists.

Kalbfield's Minstrels.

The lovers of minstrelsy will welcome the company of Kalbfield's Minstrels, which is the opening attraction at the opera house on Friday night, November 17th. This company of thirty white artists comes to Gainesville highly recommended for the up-to-date, chaste and refined performance they give, the company being well selected and calculated to please the most fastidious. The magnificent first part, with its scenic effects, fine grand electrical display, the gorgeous costumes with their blending colors, are the admiration of all who have the good fortune to witness this truly perfect minstrel production. The company is composed of funny comedians, sweet-singing vocalists, and an olio of high-class featured acts.

Best Liniment on Earth.

Henry D. Baldwin, Superintendent City Waterworks, Sheilsburg, Wis., writes: "I have tried many kinds of liniments, but I have never received much benefit, until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth." 25c, 50c and $1. Sold by W. M. Johnson.

IN THE CIRCUIT COURT.

Case of Ann Beach vs. the Atlantic Coast Line Railroad Still On.

Wednesday was a quiet day in the circuit court, the case of Ann Beach vs. the Atlantic Coast Line Railroad Company, which was called Tuesday morning, and of which our readers are familiar, having consumed the entire day. The evidence was all in last night, however, and the argument of counsel will begin this morning.

A number of cases were disposed of during the day by continuance.

Solicitor Calhoun is still busy in the grand jury room and a great many indictments are being secured.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavensworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

From the Orphanage.

It will be remembered that the last Thursday in this month will be our National Thanksgiving Day. Last year a number of the friends of the Orphanage over the State, unsolicited, sent us a thank-offering. This has moved us to ask that this Thanksgiving be made a day in which the Florida Baptist Orphanage will be remembered with an offering. Nothing can be more suitable than a Thanksgiving to send gifts to orphanages. Where services are held on that day a collection taken and sent to the poor is certainly pleasing to our Father.

Where services are not held offerings sent by individuals is an act of worship.

Please remember us with a thank-offering.

$5,000 Reward

will be paid to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform or their derivatives in any of Dr. Miles' Remedies.

This reward is offered because certain unscrupulous persons make false statements about these remedies. It is understood that this reward applies only to goods purchased in the open market, which have not been tampered with.

Dr. Miles' remedies cure by their strengthening and invigorating effect upon the nervous system, and not by weakening the nerves.

"I consider that there are no better remedies put up than Dr. Miles' Nervine, Anti-Pain Pills, and Nerve and Liver Pills. We have used them for years, and recommend them to many others. My wife is using the Nervine, and considers it the best medicine in the world. A lady friend of mine, who was almost a total nervous wreck, through my earnest solicitation has used several bottles of the Nervine with wonderful results." WM. CROME, Salt Lake City, Utah.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk.

Death of Mrs. Louise Andrews.

Mrs. Louise Andrews, 70 years old, died in the home of her daughter, Mrs. Charles Junken, in Fulton street, shortly after 1 o'clock Monday afternoon. While Mrs. Andrews had been ill for several weeks, her death came with great suddenness and shock to her friends and family. She was a sufferer from heart disease, but during the last few weeks she had been considered much improved. She was a woman of lovable disposition and had made a number of acquaintances since coming to Hampton. Besides her husband, Mr. T. F. Andrews, she is survived by four daughters—Mrs. Charles Junken, Hampton; Mrs W. F. Minty and Miss Mary Andrews, St. Paul, Minn., and Mrs. Edward Jones, Palmer, Fla. The funeral service was held in Hampton at Old St. John's Episcopal Church.—Times-Herald, Newport News, Va.

Mrs Andrews had lived at Palmer for the past twenty-two years and had many dear friends who will miss her, and extend their heartfelt sympathy to the bereaved family.

The illegal voters of New York will soon begin to change to some other ward and be compelled to Sing Sing.

Because a man has just served a term in jail or a home for the feeble-minded, is no reason that he is fit to serve on a jury.

Ida Tarbell will now have to engage in some honorable occupation, as her Rockefeller stories are getting stale.

Some of the men who did the work in New York of the ballot stuffing frauds are getting ready to squeal on the leaders.

There is one Filipino who will have to become a citizen of the United States. He has come here to learn the political situation.

Another bank president has been sent to prison. Thomas B. Clement, president of the First National Bank of Fairbault, Minn., has entered upon an eight years' term for embezzling the bank's funds.

New sidewalks are being built in many portions of the city, which will be appreciated by pedestrians. There is room for many more, and they should be substantially built, as it will pay in the long run.

People who go to the State Fair at Tampa had better take only what money they need to defray expenses and leave the rest at home in the bank. There will be plenty of sharpers there to take in the unwary.

The State Fair Association will issue no free tickets. The members of the press will be honored for the good work done, and exhibitors of county displays will have free passes. The Fair is not a free show and has a large expense to meet and pays handsome premiums.

We may be fond of Battenberg and all the nice things he says about us, but we don't want any alliances with the English or any goverament of Europe. We will be friends with them and sell them stuff cheaper than we do our home folks—on account of the tariff—and that is all.

The Germans who are making the statement that emigrants are forced to work by revolvers should have more sense than to make such silly reports. The laboring man has as much liberty in Florida as in any State in the Union. There never was a more flagrant falsehood sent out about any section.

A communication in The Ocala Evening Star calls the argument of Capt. W. J. Hillman of Live Oak, on the prohibition question, decidedly "hollow." It says that the gallant Captain asserts that for twenty years they have had local prohibition in Suwannee county, and that in the past five years the growth has been phenomenal, thus leaving the inference that the first fifteen years were not stimulating to advancement. That may be all true, as it probably took them a long time to sober up and get down to business. The damage sometimes wrought by whiskey can never be repaired. They have done well.

PEANUTS AS FORAGE.

The general and popular conception of the value of the peanut is more in keeping with its association as a side light to the circus than as a valuable farm product and forage crop, says The Journal of Agriculture. However, the peanut is a valuable leguminous plant for the South, where it has long been grown in certain sections as a staple market crop and where its value as a forage crop for farm stock is being more and more appreciated and its culture for this purpose is becoming more general.

The area devoted to peanut culture, according to the 12th census, increased from 208,946 acres in 1889 to 516,658 acres in 1899, or an increase of over 153 per cent while the total production increased over 233 per cent during the same period. The Arkansas Experiment Station has grown peanuts for a series of years and in a recent bulletin has given a summary of its observations on the culture and uses of the plant for stock food together with recommendations for growing the crop.

Particular attention was given to the Spanish peanut, a small but prolific variety, which has been observed to make a good growth and given profitable returns wherever the cowpea can be grown with success. The numerous estimates made by the Arkansas station as regards the yield of hay from a crop of peanuts varies from one to nearly three tons per acre. This hay is usually worth at least $10 a ton and may be considered a by-product when the nuts are harvested for market.

In connection with the value of peanuts as a forage crop, it may be noted that in Virginia there is a man who has been accumulating a tidy fortune through the quality of hams cured and packed by him. The hams have a rich and sweet flavor which makes them in great demand at increased prices The packer each year goes through neighboring States buying up "razor-backs" which he has shipped to his farm. It is there that they are given a food which imparts the flavor and sweetness—nothing more than peanuts.

GOOD ROADS.

Many portions of the State are busy with the work of making roads that will attract people to those sections. There is nothing that will advance the country any more than roads that will allow farmers to haul good-sized loads of produce to market.

Alachua county has the farms, and all it needs now is the roads, so that the farms can be reached without danger of breaking down a substantial wagon in making the trip. A rock road enhances the value of property along which it passes and a stranger would much prefer to locate along a good road.

In all sections of the State where they have good roads, there you will find good people, and good people should occupy our good lands.

The people of Russia will have a hard job to find out exactly what liberty means. Many of the dukes who will be deprived of their occupation by the new form of government are trying to make the ignorant peasants believe it means anarchy, and if the cossacks would only turn loose on a few of them, instead of committing such contemptible depredations against the Jews, there would be more of a chance to restore order in the land.

In order to guard against the Mexican boll weevil in Mississippi and check the eastward spread of this cotton pest, the United States Bureau of Agriculture has assigned Prof. W. M. Bainberge to that State as special agent, with headquarters in Jackson. The professor has had extensive experience in this work and it is hoped the spread of the insect may be checked.

Beware of Ointments for Catarrh That Contain Mercury,

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle.

Dengue fever, has been very helpful to "boozers" in local option towns. A fellow who was very comfortably loaded with a mixture of Jamaica ginger, moonshine, etc., a few nights ago, claimed he had a desperate attack of dengue and could hardly walk.

People who are always anticipating trouble are often disappointed if they don't find it, which troubles them just the same.

It is bad enough to have a tooth pulled, but when the dentist gets the wrong molar and yanks it out, there is sufficient grounds for a damage suit, and a German judge has so decided.

Mayor Tom Johnson of Cleveland is moving for the establishment of an "anti-suicide bureau," the object of which will be to dissuade men from suicide by affording relief from the worries that drive men to take their own lives and by conducting an educational crusade against self-slaughter. Four white men, four black men and one dark colored female make up the list.

W. I. Lankford, who was shot at Ocala Saturday night while the officers were attempting to arrest him, died on Monday. He was a woods-rider for W. H. McRainey of Wildwood, and bore a good reputation.

The United States Supreme Court has affirmed the decision of the State Supreme Court in the case of the Tampa Waterworks Company vs. Tampa city, holding that the city has the right to modify the rates paid by consumers.

The Jacksonville Bar Association has passed strong resolutions condemning in no uncertain terms the class of work that has been turned out by the printing concern having the contract for the printing of the Supreme Court reports and the delay that has ensued in completing the work. This printing has been done by the Capital Printing Company of Tallahassee.

"The road from New Smyrna to Daytona," says The Breeze, "is now in fine condition, and will be an ideal drive for automobilists this winter. We invite the visitors of our neighboring cities north of us to take a run down to New Smyrna and take a drive over our nice shell streets and see one of the prettiest towns in Florida. We have much here to attract the sightseers besides our shell streets, as this is one of the oldest settlements in the United States."

There is evidently no truth in the statement that the water hyacinths are spreading on the lower canals of the Florida Coast Line and Transportation Company, for the Delray correspondent of The Miami Metropolis says: "Capt. George G. Gleason of St. Augustine, who spent last Wednesday in town and took a trip down so far as Hillsboro Inlet, looking up the rumor in regard to water hyacinth being in the canal, found only lettuce, which will do no damage."

No Poison in Chamberlain's Cough Remedy.

From Napier (New Zealand) Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by all druggists.

Spent No Money Says McClellan.

New York, Nov. 15.—In a certificate filed yesterday in the county clerk's office, Mayor George B. McClellan asserts that he spent nothing in the recent campaign. He says: "I contributed no money nor did I expend any money directly or indirectly by myself or through any other person in aid of my election."

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Monument at Arlington.

Washington, Nov. 15.—Plans for the raising of funds to erect a monument in Arlington cemetery to the confederate dead are to be formulated by a joint committee from every confederate organization in the District of Columbia, at a meeting for that purpose to be held shortly. A sculptor, whose name is withheld for the present, has offered to design the monument without compensation. The cost of the construction and erection will be placed at between $15,000 and $20,000, to which fund it is proposed to ask contributions from all confederate societies of the south. The monument will be placed in the reservation for confederate dead in the national cemetery.

Western Money Aids Wall Street.

Chicago, Nov. 15.—Chicago bankers express considerable satisfaction over the money market although in New York there may be apprehension by market interests. The high rates in the east have resulted in a great deal of western money finding its way to Wall street. A continuance of this situation will work to the disadvantage of the western commercial borrowers. These quotations are as high usually as commercial interests expect to pay in times such as these. A prolongation of 10 or 20 per cent rates in New York would attract so much money from Chicago and other western points that business papers would meet with difficulty in being placed.

Keep Your Head Clear

And your stomach free from indigestion if you would be happy with your family and your fellow-man.

The surest thing on earth to get a man's system "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in every instance is so much more palatable.

AWFUL ACT OF INSANE WOMAN.

Mother Throws Child Out of Window and Attempts Suicide.

Chicago, Nov. 15.—Becoming suddenly insane Mrs. Bejamin Giest, living at 113 Welsh street today hurled her 5-year-old son Luca, out of a third story window and then attempted to kill herself with a revolver.

The screams of Mrs. Giest alarmed her landlady, Mrs. William Barton who ran into Mrs. Giest's apartments to see what was the matter. Mrs. Giest was running around the rooms flourishing a revolver while the little boy was begging her not to kill herself.

Mrs. Giest had lit every gas jet in the place and demanded that Mrs. Barton bring her more lamps. Mrs. Barton declared that she did not have any more, and Mrs. Giest attempted to shoot her. Mrs. Barton closely pursued, fled to the sidewalk and made her escape. Mrs. Giest then rushed back to the rooms and picking up the little boy, tossed him out of the window. The boy as he fell narrowly missed Miss Lola Woods, employed in a department store on the first floor, and crashed into a basket of crockery which had been left on the pavement.

The child was taken to the county hospital where it was declared he would probably die.

WOULD NOT ISSUE WARRANT.

Judge Crane Denied Application in the Margaret Dodd Case.

New York, Nov. 14.—Magistrate Crane denied yesterday the application for a warrant in the Margaretta Todd cae. He gave no reason, but it is understood that it was taken in accordance with an opinion by Assitant District Attorney Holte. He said:

"If it can be proved that Mrs. Todd's signature was attached to the document shown to P. W. Radcliffe, the undertaker, by Ingersoll Lockwood, or if either of the subscribing witnesses to this alleged second will can be produced, criminal proceedings will be warranted on any one of three counts. But at present I agree that the evidence does not warrant an arrest."

The motion for the appointment of a temporary administrator will be heard in the surrogate's court this morning.

SECRETARY TAFT RETURNS.

Has Been To Isthmus of Panama on a Tour of Inspection.

Norfolk, Va., Nov. 15.—The United States cruiser Columbia, Commander J. M. Boyer, passed in the capes of Virginia at 7 o'clock this morning bearing homeward Secretary of War Taft and party enroute from the Isthmus of Panama, where the secretary has been an an inspection tour. The Columbia sailed from Colon on Nov. 7, and after a brief stop at the United States naval station at Guantanamor, Cuba, left that place on Friday last proceeding directly from Hampton Roads.

The cruiser upon entering the capes came at once into Hampton Roads and dropped anchor. Secretary Taft and party will proceed this evening by a steamer to Washington, arriving there early tomorrow morning.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

Recovered $1,000 Diamond.

New York, Nov. 15.—Miss Alice Roosevelt, her uncle, Douglas Robinson, Mr. and Mrs. Cornelius Vanderbilt and Nicholas Longworth went to the Majestic theater last night in a rented automobile theater coach. On entering the box Mrs. Robinson discovered the loss of a stud valued at $1,000. A search was made of the aisle and lobby without succesms and Mr. Robinson then telephoned to the cab company to have the coach sent back to the theater without giving the real reason for his order. When the cab arrived he entered and found his stud on the floor of the automobile.

Constipation.

Health is absolutely impossible if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. M., Bronson, Fla., writes, Feb. 12, 1902: "Having used Herbine, I find it a fine medicine for constipation." 50c a bottle. Sold by W. M. Johnson.

Nightcap Privileges.

Queen Mary's kindness took a very odd form in the case of the Earl of Sussex. He was a valetudinarian who had a great fear of uncovering his head lest he should take cold. Accordingly he petitioned Queen Mary for leave to wear his nightcap in her royal presence.

Her majesty, in her abundant grace, granted his petition twice over. His patent for this privilege is perhaps unique in royal annals: "Know ye that we do give our beloved and trusty cousin and counselor, Henry, earl of Sussex, Viscount Fitzwalter and lord of Egremund and Purnell, license and pardon to wear his cape or nightcap, or any two of them, at his pleasure, as well in our presence as in the presence of any other person or persons within this realm or any other place in our dominions wheresoever during his life, and these our letters shall be sufficient warrant in his behalf."

Shocks From False Teeth.

"False teeth have been known to generate electricity in the mouth and shock their wearer painfully," said a dentist. "Only last week a gentleman came to me and said he feared he was getting a cancer on his tongue. 'Such severe shooting pains attack me,' he said, 'that often I utter loud oaths in the most unseemly places—at teas, before the minister, and so on. It is like knife thrusts. Do you think I am going to lose my tongue?' I found that two different metals had been used in fixing the poor man's false teeth. These metals, combining with the saliva, had formed a small battery. Electricity generated in the battery continually, and shock after shock was administered to the tongue. I painted the metal with an insulating varnish. Thereafter the man had no more trouble."—New York Press.

Origin of Dominos.

Two monks who had been committed to a lengthy seclusion beguiled the dreary hours of their confinement with a game played by showing each other small flat stones marked with black dots. By a preconcerted arrangement the winner would inform the other player of his victory by repeating in an undertone the first line of the vesper prayer. In process of time the two monks managed to complete the set of stones and to perfect the rules of the game, so that when the term of incarceration had expired the game was so interesting that it was generally adopted by all the inmates of the monastery as a lawful pastime. It very soon spread from town to town and became popular throughout Italy, and the first line of the vespers was reduced to the single word "Domino," by which name the game has ever since been known.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." J. W. McCollum & Co.

POINTED PARAGRAPHS.

You can't satisfy some people. Don't try.

If you do a disastrous thing carelessly, it is the same thing as if you did it on purpose.

Some people's idea of being sincere is to say disagreeable things to their friends' faces.

Some houses always look as though the occupants were in the midst of a house cleaning.

If the women were called upon to vote for the nicest man in town, how many would vote for their husbands?

Never worry about anything that you can put off until tomorrow. Many of the worries of today, if put off until tomorrow, will take care of themselves.

A man and his girl can endure a great many hardships when they are courting that they don't know are hardships until after they are married.—Atchison Globe.

First Typesetting Machine.

In answer to the query, How old are typesetting machines? the London Chronicle prints an extract from a copy of the Birmingham Herald of 1823: "Dr. Church is now at Birmingham preparing his new printing machine. The compositor has only to sit down at this curious mechanism as he would at a pianoforte, and as he strikes the keys the types all fall from the case into their proper places with a velocity that keeps pace with the most rapid speaker. The form having been worked off, the type moves into the melting pot, from which it is returned, recast into its original state without any diminution of material and thence distributed into the case quite new. One of these machines placed at the bar of the house of commons would always insure a correct report of the debate. Dr. Church, the inventor, is a native of Boston, in New England."

A QUAINT WARDROBE.

The Outfit of a Seventeenth Century Gentleman of Fashion.

In the year 1561 Sir Ralph Verney, aged thirty-seven and recently widowed, decided to make the "grand tour" of the continent with his son Edmund, aged fourteen. He gave a list of the clothes that were to be sent after them to Lyons. It included "6 Fine night capps Laced marked V in black silke, and 2 Fine night capps plaine," for his own use, and "4 new plaine capps marked V in Blew silke" for the boy. There were also numerous elaborate shirts with lace and "New Cambrick double Ruffle Cuffes marked V in blew thread, 5 paires of little Holland Cuffes for Mun, 3 paires of Cambrick double Boot-hose," and a large number of "fine Holland Handkerchers Buttoned." Also "2 Tufted Holland Wastcoates Lined, 2 Dimothy Wastcoates, 4 Face Napkins and 2 old Handkerchers and 2 paires of old Linnen Stockings." At Lyons a "Blacke trunke with 3 lockes and Wooden Barres" was packed to go to Florence and the widowed baronet's careful inventory of its contents shows that there was a great deal of the heavy mourning which the "etiquette of grief" required. "Black Cloath Doublets, Black Breeches and Cloake, Blacke Cloath Cape for a Cloake and 2 other peeces of Black Cloath, Black Hats and Hatbands, Old Blacke Tafaty garters and new Black ribbon roses and severall peeces of extra crape."

Sir Ralph Verney's baggage contained no fewer than "6 serge undercapps and 6 Browne callico undercapps." These were for wearing by day when the wig was taken off. And "3 plaine new night capps coarse and 30 Fine Peaked night capps and 2 Night Periwiggs." His toilet equipment included "12 Tortus shell Agendas, 2 gold Picktooths, Hair Powder, 2 Paires new Barbing Larmes, Sizars, and 3 Head-rubbers." And there were "Muske for Powder, Ciprus Powder, and a Puffe." For emergencies there were a "Black Leather needle case with a great gold Bodkin, Papers of Pinns, Blew Thread, Shirt Buttons, and old White Round Buttons, Cap-strings and Tape." In the interests of health "3 papers about Phisick" and "Sir R. Hastings' plaster for a straine" were taken, but "rose water, rose viniger and elder viniger" were perforce left behind, though considered most necessary for his comfort for the winter.

Of precious possessions subjected to the risks of travel there were a few rings "whereof one hath 3 Diamonds like harts," two silver rings of the boy's and "a Bundle" of Mary's hair. He took to Florence as a gift to a friend there the new Paris luxury "the Teeth Brushes and Boxes," and in reply to the thanks he received for them said, "These are such inconsiderable Toyes that I must intreate you to speake no more of them."—Chicago News.

Sluggish Liver a Foe to Ambition.

You cannot accomplish very much if your liver is inactive, as you feel dull, your eyes are heavy and slight exertion exhausts you. Orino Laxative Fruit Syrup stimulates the liver and bowels and makes you feel bright and active. Orino Laxative Fruit Syrup does not nauseate or gripe and very pleasant to take. Orino is more effective than pills or ordinary cathartics. Refuse substitutes. J. W. McCollum & Co.

ICHOLAS WILL NOT RETURN TO CAPITAL

ar of Russia Decides to Spend Winter at Sorskoe Selo.

OLES CLAMOR FOR FREEDOM

ion Delegations Are Working to Secure Co-Operation of Workingmen's Organizations to Assist Them in Demands for Self-Government.

St. Petersburg, Nov. 15.—Emperor Nicholas and the Russian court will not come to St. Petersburg this winter. A short time ago it was announced that the emperor was about to return to the winter palace in an annex of which Count Witte has installed himself but his majesty has now decided to go from Peterhoff back to the Sarskoe-Selo, where he has been living for almost two years with the exception of the last months spent at Peterhoff. Except on the occasion of the ceremony of blessing the waters last January, when the emperor narrowly escaped death, owing to a mysterious charge of grape being fired into the direction of the imperial party by a saluting battery, the emperor has not stepped inside the winter palace for over eighteen months. His decision not to come to the capital is regarded as unfortunate, not only for its moral effect but because it keeps him surrounded by court influences and out of close, immediate touch with Count Witte who at the present time should have daily and almost hourly conferences with the emperor.

Members of his majesty's entourage have strongly advised against the emperor being in St. Petersburg when the national assembly meets, as well as on account of the danger of popular disorders of the capital this winter, recalling to the emperor's mind not without effect, the fatal results of Louis XVI agreeing to leave Varsailles and place himself at the mercy of the populace of Paris in 1789.

The Polish delegation here are working to secure the co-operation of the Liberals, Social Democrats and workmen organizations in other general political strike in aid of the Poles' battle for autonomy, but thus far, while they have met with much sympathy, no action has been taken for their assistance.

Count Witte, whom the deputation saw was extremely firm, declaring emphatically that the government would do nothing for Poland under compulsion, and that martial law could not be abolished until the separatist movement comes.

The premier declares that the most of the Poles could expect in addition to the rights granted under the reform manifesto was a separate general zemstvo for Poland and municipal self-government.

The Polish delegates say that over 7,000 Pole prisoners are languishing in the jails of Warsaw. The radical press today is not sparing in the denunciation of the government's action in putting all Poland under martial law, declaring that it is a plain violation of the spirit of the reform manifesto.

It is evident that the government has recovered its nerve, and is determined to use severe measures if necessary to restore order.

The agitation throughout the country at the exceptional powers conferred on the aides-de-camp of the emperor who will be dispatched to the central provinces where agrarian disorders are spreading is proof of this. At the same time half a dozen governors, including the governors of Odessa, Tomsk and Kalsan, willfully failed to prevent disorders, have been summarily dismissed at Count Witte's institigation.

The clergy with other classes continue their intercessions for the Cronstadt mutineers, 151 of whom are reported to have been condemned to death. A hundred orthodox priests at a meeting held at the residence of the Metropolitan Antonius, formulated and dispatched an appeal for mercy to the emperor.

A number of very officers indignant at the action of Lieutenant Froloff, of the imperial horse guard, who recently sabred Professor Tarle, of the Polytechnic institute, have joined in a proposal to boycott Froloff and all the other officers of the horse guards unless the lieutenant clears himself of the charge or resigns within a month.

DISTRIBUTION OF SEEDS.

The Government Will Give Away Packages Aggregating 38,000,000.

Wasaington, Nov. 15.—The annual distribution of vegetable and flower seeds by the department of agriculture will begin on Dec. 1, and before planting time it is expected the entire amount, aggregating 38,000 packages will be in the hands of the people in all sections of the country. Congress for the past several years has appropriated $290,000 for this purpose the proportion of the amount is used for the experiment work and other kindred matters. The bulk of the thirty-eight million packages is subject to the order of senators and representatives for distribution among their constituents, the secretary of agriculture serving one-fifth of the entire amount to supply the statistical crops correspondents, the weather bureau and for other purposes. The country has been divided into six sections with especial regard to climate and special seeds wil be sent only to those localities in which their propaganda and believed to be especially adapted. In addition to those of the vegetable and flower variety, department sends out quantities of cotton, forag eand field seeds to localities to which they are best suited and from which it is thought good results may be obtained.

WILL IMMIGRATE TO AMERICA.

Russian Jews Will Come to This Country to Escape Persecutions.

New York, Nov. 15.—Jacob H. Schieff at the annual meeting of the educational alliance last night referred to the conditions in Russia and also spoke of the Jewish race. He said:

"The turmoil in Russia must have some serious consequences to the United Statess. It will mean an immense immigration and this country must keep its doors wide open to allow those who flee from that country to enter. The Jew has a large and generous heart for those afflicted, and will aid great hospitals and like institutions. But when it comes for a Jew to contribute for the head, for education, nothing good can be said. There are many races of the Jew, five or six at least.

"The Jew races cross in this country and they will unite in making the greatest Jew that ever existed, the American Jew. If we want this, we must do our duty to that race and in the end the world will get the benefit."

To Decide Canal Question.

Washington, Nov. 15.—The question whether the Panama canal shall be a sea level or a lock canal will have to be decided within a very few days. All the members of the board of consulting engineers have returned to the city of Washington and expect to meet every day of this week until the final conclusion has been reached. Such the secretary has been observed during the meeting that it is as yet impossible to make a definite statement as to the result. After it has been decided which type of canal to adopt, a short report will be made indicating briefly its nature, but not going into any details. By that time the leave of absence of most of the foreign delegates to the board will have expired and they will leave for their respective countries during the last days of this month.

SECOND SESSION OF LABOR FEDERATION

Many Important Questions Before National Body.

FIGHT AGAINST CHILD LABOR

An Assessment is Levied on All Members of American Federation of Labor to Assist the International Typographical Union in Its Fight.

Pittsburg, Nov. 15.—The second day's session of the American Federation of Labor convention was called to order promptly at 9 o'clock by President Gompers. He called John Mitchell, second vice president, to the chair and James Duncan, first vice president, read the annual report of the executive council. It gave in detail many of the points covered in the reports of the president, secretary and treasurer. Two meetings of the council were held during the year, the last occurring in this city Saturday night. The jurisdictional disputes were again brought up and recommendations made, most of which have been complied with.

The coppersmiths made application for a charter, but it was denied and the organization was urged to affiliate with the Amalgamated Sheet Metal Workers' International alliance. Arrangements have been made for the consolidation of the two organizations.

In the matter of the protection of children the executive council had bills introduced in the legislatures of many states, particularly in the south, prohibiting the employment of children in mills, factories, mines and industrial establishments. Some progress was made, but results during the year were not entirely satisfactory.

President Gombers was authorized to enlists the assistance of other organizations in securing the passage of legislation in all states prohibiting the employment of child labor.

It was decided that in the future the executive council shall not interfere with disputes between labor organizations unless the unions involved have exhausted all means to bring about an adjustment of the differences.

An assessment of 1 cent a member a week, for a period of four weeks was levied on the entire membership of the Federation for the benefit of the International Typographical union in its efforts to establish an eight-hour workday in the job and commercial printing establishments in the United States and Canada.

The Typographical union has levied a substantial assessment for that purpose, and all organizations are urged to render assistance to the printers in their effort to establish the eight-hour day by Jan. 1, 1906.

Against Freight Rate Litigation.

Washington, Nov. 15.—An earnest protest was made to the president today against the proposed railroad freight rate legislation. The protest was filed by representatives of the five great labor organizations connected with the railroads, the engineers, firemen, conductors, switchmen and the trainmen. The members of the delegation which called on the president, represented the several organizations. They pointed out to him that railroad rate legislation logically meant the lowering of rates. This, they contended, will be followed by a lessening of the earning power of the railroads and consequently by reduction eventually of the wages of railroad employes.

A SERIOUS TRAGEDY IN THE EAST END

George Bradley Lost Life at Hands of E. R. B. Kite.

ROW STARTED OVER HOG

Animal Ate Little Girl's Lunch and Was Punished by School Boys, When Owner Took the Matter Up With Fatal Result—Kite Surrendered.

From Tuesday's Daily Sun.

The vicinity of the Orange Heights school house, in the East End, was the scene of a tragedy at a late hour Saturday evening which cost George Bradley, a negro, his life, as E. R. B. Kite, yardmaster of the Seaboard Air Line railway at Waldo, was compelled to kill him to save himself, so it is alleged. Immediately after the tragedy Mr. Kite telegraphed Attorney Evans Haile of this city to come to Waldo at once, notifying him of the trouble, and stating that he was willing to surrender. Deputy Sheriff J. H. Granger accompanied Attorney Haile, and upon their arrival at Waldo Mr. Kite gave himself up, but immediately gave bond for his appearance before the grand jury.

From the best information obtainable, it appears that one day last week Kite's little sister, about fourteen years of age, who is attending school near Orange Heights, took her dinner to school, as she had been accustomed to do regularly. A hog belonging to Bradley overturned the basket and ate the little girl's lunch, when some boy classmates caught the animal and cut its tail off. This so enraged Bradley, who came upon the scene shortly afterwards, that he is alleged to have used abusive language to the little girl, stating at the time that if her "pig brother" wanted to take it up he (Bradley) would give him all he was looking for.

The girl told her brother of the occurrence, but, while he was naturally provoked, let the matter drop. He was riding in the vicinity of Bradley's home Saturday afternoon, when he met Bradley, who was armed with a shotgun. Bradley accosted Mr. Kite, referring to the incident of a few days previous, and asked him if he "wanted to take it up," at the same time directing a vile oath at him and raising his gun, as if endeavoring to shoot. At this instant Kite, realizing the gravity of the situation and his danger, raised his rifle, which he carried in the wagon, and fired three times, each shot taking effect. Bradley expired instantly, when Mr. Kite drove back to Waldo, telegraphed to Mr. Haile and surrendered to the officers.

HOSPITALS CROWDED

MAJORITY OF PATIENTS WOMEN

Mrs. Pinkham's Advice Saves Many From this Sad and Costly Experience.

It is a sad but true fact that every year brings an increase in the number of operations performed upon women in our hospitals. More than three-fourths of the patients lying on those snow white beds are women and girls who are awaiting or recovering from operations made necessary by neglect.

Every one of these patients had plenty of warning in that bearing down feeling, pain at the left or right of the womb, nervous exhaustion, pain in the small of the back, leucorrhœa, dizziness, flatulency, displacements of the womb or irregularities. All of these symptoms are indications of an unhealthy condition of the ovaries or womb, and if not heeded the trouble will make headway until the penalty has to be paid by a dangerous operation, and a lifetime of impaired usefulness at best, while in many cases the results are fatal.

The following letter should bring hope to suffering women. Miss Luella Adams, of the Colonnade Hotel, Seattle, Wash., writes:

Dear Mrs. Pinkham:—

"About two years ago I was a great sufferer from a severe female trouble, pains and headaches. The doctor prescribed for me and finally told me that I had a tumor on the womb and must undergo an operation if I wanted to get well. I felt that this was my death warrant, but I spent hundreds of dollars for medical help, but the tumor kept growing. Fortunately I corresponded with an aunt in the New England States, and she advised me to take Lydia E. Pinkham's Vegetable Compound, as it was said to cure tumors. I did so and immediately began to improve in health, and I was entirely cured, the tumor disappearing entirely, without an operation. I wish every suffering woman would try this great preparation."

Just as surely as Miss Adams was cured of the troubles enumerated in her letter, just so surely will Lydia E. Pinkham's Vegetable Compound cure every woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability and nervous prostration.

Mrs. Pinkham invites all young women who are ill to write her for free advice. Address, Lynn, Mass.

SHIPMENT OF STOCK TO FAIR

Spring Park Stock Farm Company Made Big Show Monday.

Manager Callison, of the Spring Park Stock Farm Company, Monday loaded his fine Hereford and Jersey cattle, Berkshire hogs, Angora goats and poultry on the cars, and the stock left here on a special train in the early afternoon.

The stock, especially the cattle, attracted a great deal of interest, and many visited the old Tennessee stables, where they were quartered Sunday. Manager Callison, realizing the confinement of the cattle for several hours, paraded them around the streets for a few blocks just prior to taking them to the cars, and they were greatly admired by all who saw them.

If the Spring Park Stock Farm Company does not carry away the bulk of the live stock premiums at Tampa it will not be by any means the cause of inferiority

Old Maids' Supper.

The Old Maids' supper, which was given at the North Gainesville Hall Monday evening for the benefit of the hall fund, was well attended, and it is needless to add, enjoyed. The girls were "dressed in their best," but were sold by weight, with the result that they realized from 30 cents to $2.25.

The program was interspersed with "Rhymes from Mother Goose," by the little folks, and at the conclusion refreshments were served. Altogether the evening was pleasantly and profitably spent, about $15 having been realized.

THE MULLET LAW WILL PROVE HARD

Public in Interior Will Soon be Deprived of This Species.

LAW EFFECTIVE NOVEMBER 15

The Act Provides That, After This Date, No Mullet Shall be Shipped in Florida, and Floridians Must Eat Other Fish or Nothing.

From Tuesday's Daily Sun.

Mullet-eaters in this city and State should get all coming to them by the 15th inst., which will be tomorrow, for the law preventing the shipping of this toothsome member of the finny tribe will go into effect, and, if this law is complied with, it will be impossible to secure a mullet in the interior for love or money. This will work quite a hardship on many who have been accustomed to feast on mullet regularly, but now they must content themselves with other varieties, if they are compelled to eat fish.

For the past few years, from reports, this species of fish, which were caught in large numbers on the Atlantic and Gulf coasts, has rapidly diminished, with the result that it is said they have become so scarce that the situation became alarming. This resulted in the introduction and passage of a bill at the last session of the Legislature preventing the shipment of mullet from any point in Florida.

The law, however, does not prevent the catching of mullet, which will not deprive residents of seaport towns from engaging in the industry for local demand, or using the fruits of their labors for their own homes.

The mullet industry has been a big thing for the fish dealers of Gainesville, since it has been the standard fish on this market for several years. The marketmen are very much provoked at the law, but will comply with the same to a letter and depend upon other fish to accommodate their customers.

From Wednesday's Daily Sun.

According to letters received by the marketmen here from fish dealers in Cedar Key, the great Gulf fish center, it is learned that the law prohibiting the shipment of mullet, passed by the last Legislature, and which should have gone into effect today, five days grace has been granted, and that dealers may continue to receive and dispose of mullet up to and including the 20th inst.

A prominent marketman stated Tuesday that he considered the law a very poor one and discriminating against the Florida fishermen in competition with the fish dealers of Georgia. Mullet are as plentiful in the waters of Georgia as in Florida and dealers may secure fine mullet from Brunswick and Savannah in almost as quick time, and with only a little increase in cost of transportation. "We are going to have mullet if it is possible to get them, and I am sure it is," he remarked, "for the Georgia fishermen will be glad to supply us. I consider the law more of a detriment to the Florida fishermen than to the dealers."

MOTHER AND CHILD.

Let the mother take Scott's Emulsion for the two; it never fails to benefit them both. One can eat for two, but nourishing two is a different thing. It calls for a degree of internal strength that the average woman lacks. People of luxury are not very strong by habit; overworked people are weak in some functions from exhaustion or their surroundings. Scott's Emulsion can be depended upon to overcome such conditions. It is a wonderful food for a mother and child.

ODD FELLOWS' HOME.

A Number of Guests Already Arrived For the Winter Season.

The Odd Fellows' Home and Sanitarium has opened for the season, and everything about the grounds looks very interesting.

Several guests are stopping at the Home, among them being William and Guy Thompson of Pittsburg, Pa., and Mr. and Mrs. J. C. Byars and son Carthell of Humboldt, Tenn.

There are a number of patients in the hospital department, and they are all getting along nicely. Miss Beulah Hall is one of the new trained nurses lately arrived at the Home to assist Miss Lee, the matron and head nurse.

Miss Lee, who is now in charge of the Home, has everything as neat and tidy about the rooms as one could ask. She is an excellent person for the position and the board is fortunate in securing her services.

The matron requests The Sun to state that the hours for receiving visitors at the Home are from 9 to 11 a. m. and from 2 to 4 p. m.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

A Fine Photograph.

One of the finest photographs ever turned out in Florida, or anywhere else for that matter, is a photograph of the University Graded and High School, the result of the efforts of Jas. F. Smith, the Gainesville photographer. The picture mounted is 20x24 inches. It has been neatly framed, and will constitute a part of the educational exhibit of Alachua county at the State Fair. As an artist Mr. Smith is a success.

J. H. Cubbage, about fifty years of age, and for the past ten months night watchman at the Kelley mill, near the waterworks, died Sunday night, and was buried Monday. Deceased was a native of South Carolina, and had no relatives here. It is understood that he was a widower and leaves a child in South Carolina. In fact, it has been very difficult to secure any information relative to his people in South Carolina.

LIVE OAK DEMOCRAT DESTROYED BY FIRE

The Entire Printing Plant is Totally Wiped Out.

ORIGIN OF FIRE IS UNKNOWN

The Daily Democrat Had Been Published But a Week—Sherwood & Pound, Owners, Lose Heavily—J. O. LaFontisee Was Editor of the Daily.

Live Oak, Nov. 13.—At 2 o'clock this morning the office of The Daily and Weekly Democrat was burned, and the origin of the fire is a mystery. The fire company responded quickly and did good work, confining the fire to the block in which it originated.

The Democrat owned one of the best plants in the State, being valued at over $15,000, and was insured for less than half of that amount, $3,500 worth of new material having just been installed.

The daily, which had had only one week's run, will be issued tomorrow from The Crescent office.

The Daily Democrat, of which J. O. LaFontisee, until lately city editor of The Times-Union, was the news editor, gave promise of being a splendid success, and the owners, full of pluck and determination, will push it to the front. The Weekly Democrat has always been successful, and is one of the most prosperous weekly newspapers in Florida. It has been an important factor in the progress of Live Oak and Suwannee county, and its loss is felt by the people generally. It was, in every respect an up-to-date paper.

The Sun and friends of Messrs. Sherwood & Pound and Mr. LaFontisee in Gainesville express their regrets at their misfortune.

Beware of Ointments for Catarrh That Contain Mercury,

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

New Pastor.

The Second Advent church of this city has secured a new pastor, Rev. W. M. Strout, who will begin his labors on Sunday next, and regular services will be held in the future.

Mr. Strout came to Florida from Vinal Haven, Me., one week ago and met with the Second Adventists Conference recently held at Live Oak, where he was assigned to the charge in this city. He is a gentleman of good ideas and expects to enter the field with a view to building up the membership.

For the present Mr. and Mrs. Strout are stopping with Mr. and Mrs. Geo. W. Perry of North Gainesville.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

The Sun was the first paper to mention Dr. Crill of Palatka for Governor, and its reasons for so doing was because the editor felt confident he was eminently fitted for the high honor as any man in the State. He has shown his ability and there is no doubt of his honesty or loyalty to the best interests of Florida.

The Jasper News says that the Buckman law "was instigated by the Devil." This is a new and startling view of the case and puts it right up to Mr. Buckman of Jacksonville to make a clean breast of it and say if he has been in alliance with that disreputable party to "come it over" the people of Florida.—Live Oak Daily Democrat.

Information has been received at Washington indicating the existence of an organization of steamship companies and others designed to guarantee immigrants to the United States against loss of passage money, etc., in the event that after crossing the ocean they are turned back on account of inability to comply with immigration requirements.

A communication in The Ocala Evening Star calls the argument of Capt. W. J. Hillman of Live Oak, on the prohibition question, decidedly "hollow." It says that the gallant Captain asserts that for twenty years they have had local prohibition in Suwannee county, and that in the past five years the growth has been phenomenal, thus leaving the inference that the first fifteen years were not stimulating to advancement. That may be all true, as it probably took them a long time to sober up and get down to business. The damage sometimes wrought by whiskey can never be repaired. They have done well.

BUCKMAN BILL TO BE TESTED.

Under the foregoing heading, The Bartow Courier-Informant has the following sensible article, which shows the sentiment of nine-tenths of the papers in the State:

"After a plethora of talk and insinuations galore on the part of the newspapers and people of Lake City, it seems that they have at last made up their minds to test the constitutionality of the University bill passed by the last Legislature. Why this action has been postponed to such a time as an adverse decision would give most trouble and annoyance to the authorities entrusted with the execution of the law, and why the people of the State should have been kept in suspense so long, are questions for Lake City to answer. That she can ever answer them satisfactorily we do not believe.

"Whatever may be the decision of the supreme court, one thing is certain, Lake City will be the loser. If the decision is against her, the great majority of the people of the State will continue to regard her, as actuated by a spirit of spiteful disappointment, as they regard her now in having instituted the suit. If on the other hand she should be successful and the University be finally established there, it would enter upon its career worse handicapped than any similar institution ever was before.

"Lake City entered the contest for the University location, and so long as she felt sure of winning, the Buckman bill was all right. Since then it has been all wrong. We were opposed to the bill, as were probably a majority of the people of the State, but we can see no possible good to come from fighting it at this late date."

By its operation the Buckman bill abolished all the colleges in the State, which gives the Board of Control the opportunity of selecting a new location. Lake City, when they were working so hard for the passage of the measure, must have overlooked this fact. They evidently thought the Board of Control would work for Lake City and not for the best interests of the State, and did not realize the fact that Gainesville was the best location for the new University.

HOLD YOUR COTTON.

Again the cotton statistics of the Federal Department of Agriculture have held their influence on the selling price of cotton, this time the statistics being those of the ginners, says The Atlanta Constitution. The effect was to slightly depress the cotton market, and the bears are again hoping against hope.

Let no Southern cotton grower allow himself to be stampeded into rushing his bales to market by any of the "bear" arguments sent out by speculators. As a matter of fact, and a fact never better known in the cotton belt, this season's cotton crop was "all in" remarkably early, and its shortness was quickly apparent. Of course a crop harvested so early is ginned early, and its shortness was quickly apparent. The middle of November sees the picking practically over, and it will surprise the men on the ground who know actual conditions if the ten-million-bale mark is reached. That would indeed seem to be a maximum figure.

The manufacturing world will take every bale of this year's American cotton crop at its true value based on the law of supply and demand. There is no need for the planter to sell his cotton for less, if he is prepared to hold awhile. Right at this juncture is a good time to "stand pat" for a higher price than the market is affording at present. The inevitable tendency of the fleecy staple is upward. It is bound to advance. The farmer who can possibly hold and does not is sacrificing good, hard-earned dollars.

And the farmers are showing the same good sense they exercised last year by holding.

POLITICAL HISTORY.

Many papers are now declaring that political history is making now, because at a few elections in an off year, when there may be a governor or a mayor or two in different States to be elected, that the Democrat and Reform party have been successful. If the same thing hadn't happened many times before there might be some occasion for hope for the future, but the same thing has been too often heard before.

The recent elections have shown that the people are opposed to bossism, a sentiment that has been manifested time and again. The victories will be enjoyed by some of those who have been elected, and we will hear the cry that "the bosses must go," the same as we did about confidence being restored, but it will only be a confidence game, and the bosses who have been squelched for the time being will start new plans to working, and when the Presidential year arrives there will be another solid phalanx of the g. o. p. to march to the front unless the Democratic party unites on a platform on which the people can stand and a man is secured from out of the West to lead the hosts.

The Republican leaders will join in with the crowd and yell "stop thief" as heartily as any one in the land, but when the excitement of the little two-by-four off-year victory has died out, they will be up and ready for the great contest with all their past deeds buried and never once think of anything but the election of their candidates.

What Roosevelt has said will be forgotten by the next campaign, and what he has tried to do will be of no avail.

READ ADVERTISEMENTS.

There is more reason for people to read advertisements in a paper than to read the news items or stories that may appear, as personal and other local items only satisfy the curiosity while the advertisements may be of financial benefit.

The merchant who has bargains for the people lets them know it through the columns of the daily or weekly paper, thus affording the readers an opportunity to save money by making purchases of necessary articles for the household. These bargain sales are made nearly every week, and as the prices are often quoted you can readily tell whether they are of advantage to you.

Read the advertisements all the time and many times you will find that you can save the price of your subscription with one bargain. When you see the advertisement of a merchant it also means that he invites you to his store.

DIE HARD.

The Lake City people die hard. They have applied to the Attorney-General for permission to use his official name in proceedings in the nature of quo warranto, to "test the constitutionality of the Buckman law." The Attorney-General granted the permission as a matter of routine practice, as such applications are never, or rarely, refused. The lawyers evidently scent some fine fees in the carefully-nursed indignation of the Lake Cityites, because their deep-laid plan to capture the University slipped a cog.—Tallahassee True Democrat.

East Gainesville is certainly becoming the handsomest residence portion of the city, and during the past summer has made wonderful progress. The new residences that have been completed and those that are being finished would be a credit to any city North or South. Along Roper avenue, one of the handsome thoroughfares, there is not a shabby house the entire length, while those on Alachua avenue are many of them model residences. There is no denying the fact that Gainesville is building substantially and will surely hold a high place as a residence city

Dengue fever has been very helpful to "boozers" in local option towns. A fellow who was very comfortably loaded with a mixture of Jamaica ginger, moonshine, etc., a few nights ago, claimed he had a desperate attack of dengue and could hardly walk.

People who are always anticipating trouble are often disappointed if they don't find it, which troubles them just the same.

It is bad enough to have a tooth pulled, but when the dentist gets the wrong molar and yanks it out, there is sufficient grounds for a damage suit, and a German judge has so decided.

Because a man stammers is no sign that he is lying. It may be his first attempt at trying to tell the truth.

GOOD ROADS.

Many portions of the State are busy with the work of making roads that will attract people to those sections. There is nothing that will advance the country any more than roads that will allow farmers to haul good-sized loads of produce to market.

Alachua county has the farms, and all it needs now is the roads, so that the farms can be reached without danger of breaking down a substantial wagon in making the trip. A rock road enhances the value of property along which it passes and a stranger would much prefer to locate along a good road.

In all sections of the State where they have good roads, there you will find good people, and good people should occupy our good lands.

HOPE FOR THE SICK.

MRS. HENRIETTA MARSH.

A VICTIM OF LA GRIPPE.

Mrs. Henrietta A. S. Marsh, 769 W. 16th St., Los Angeles, Cal., President Woman's Benevolent Ass'n, writes:

"I suffered with la grippe for seven weeks, and nothing I could do or take helped me until I tried Peruna.

"I felt at once that I had at last secured the right medicine and I kept steadily improving. Within three weeks I was fully restored, and I am glad that I gave that truly great remedy a trial. I will never be without it again."

In a letter dated August 31, 1904, Mrs. Marsh says: "I have never yet heard the efficacy of Peruna questioned. We still use it. I traveled through Kentucky and Tennessee three years ago, where I found Peruna doing its good work. Much of it is being used here also."—Henrietta A. S. Marsh.

FINE CATTLE.

The display of fine cattle from the Spring Park Stock Farm on the streets Monday is an evidence of what can be done in Florida, if pure-bred stock is used as the foundation of stock raising. The cattle from this farm are not only well-bred, but they show an individuality that is convincing to all judges of cattle. Pedigree in a scrub animal is no better than the common breed of range cattle.

There is always room for improvement in cattle for the dairy as well as beef, and the truth is that there must be a more rigid selection of breeding animals. Only the fittest should be sent out to perpetuate their kind, and the unfit never, no matter how blue their blood.

NEW WATER RATES HAVE BEEN FIXED

After Tedious Task, Council Has Determined Upon Price.

INCREASE IN MINIMUM RATE

As Far as the Council Could See, the Rate Was Adjusted to Suit All Classes and Conditions, and Fixed in Proportion to Water Consumed.

The bone of contention for several months between the citizens of Gainesville and the City Council has been the question of an impartial water rate. It was claimed by many that the rates which have been in effect ever since the water plant existed were unequal, the "big fellow" having an advantage over the small consumer. This condition of affairs resulted in the city placing a number of water meters and readjusting the rate, which is now complete and approved by the council, as follows.

Non-meter rates, minimum rate—For dwelling houses, $12 per year; for restaurants, $12 per yer; barber shops, $12 per year; stores and offices, from one to three persons, $6 per year; from four to six persons, $8 per year; more than six persons, $10 per year; laundries, for first tub, $16, for each additional tub, $6 per year; soda fountains, $20 per year. In houses of less than $200 value, two or more families may use water from same faucet upon payment of 50 cents per month, each family.

Meter rates—Minimum quarterly rate of $3, payable in advance, with an allowance of 24,000 gallons. All over 24,000 gallons and up to 40,000 gallons, 12½ cents per 1,000; over 40,000 and less than 100,000 gallons, 10 cents per 1,000 gallons; over 100,000 gallons, eight cents per 1,000 gallons. All steam plants, manufacturing plants, railroad tanks, etc., will be given a special rate upon application.

The above rates will go into effect on January 1, 1906, and Rule 16 of the council provides that any violation of these rules shall subject the party or parties offending to have water cut off, and a fee of $5 will be required for turning same on again.

PAVING ORDINANCE PASSED.

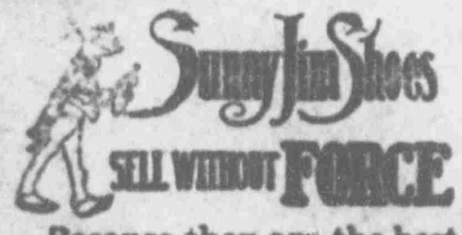
West Liberty Street Will be Paved to University Grounds.

At an adjourned meeting of the City Council, held Monday evening, an ordinance providing for the paving of West Liberty street from West Main to the University grounds, was passed. The ordinance provides flint rock as the material to be used, and also provides that the street shall be widened from a given point to a uniform width the entire distance.

No action will be taken towards beginning the work of paving until about December 15.

Cold Storage Meats.

Those who raise their own hogs and cattle to supply themselves with meats should bear in mind that the Diamond Ice Company of this city and Alachua can prepare their meats in the best manner at either place. Those who have patronized the cold storage plants of this company have obtained the best results. Manager Livingston informs The Sun that the plant at Alachua is prepared to give as good service as the one in this city, which will be a great convenience to the people of that section.



Because they are the best in the land for the money!

ELLIS—RIVES.

Two Popular Young People of Alachua United in Wedlock.

Mr. S. J. Ellis and Miss Trixie Rives were united in marriage in the Methodist church at Alachua last Sunday, Nov. 12th, at noon, Rev. M. F. Mason officiating. The church was filled to overflowing by friends of the bride and groom, a large number of invitations having been issued. The bride is the daughter of Hon. and Mrs. W. C. Rives of Alachua and was reared in that neighborhood. She is noted for her amiable, sweet disposition and numbers her friends by the hundreds, while the groom is a son of Rev. V. H. Ellis and was for many years one of the most popular and efficient teachers in the county. Recently, however, he accepted a lucrative and responsible position with Hon. Frank Adams of Jasper, where they will make their home. The bride was the recipient of many handsome and costly presents as tokens of friendship.

The Sun joins the numerous friends of the happy couple in wishing them a long, happy and prosperous married life.

IN THE CIRCUIT COURT.

Case of Ann Beach vs. the Atlantic Coast Line Railroad Still On.

Wednesday was a quiet day in the circuit court, the case of Ann Beach vs. the Atlantic Coast Line Railroad Company, which was called Tuesday morning, and of which our readers are familiar, having consumed the entire day. The evidence was all in last night, however, and the argument of counsel will begin this morning.

A number of cases were disposed of during the day by continuance.

Solicitor Calhoun is still busy in the grand jury room and a great many indictments are being secured.

From the Orphanage.

It will be remembered that the last Thursday in this month will be our National Thanksgiving Day. Last year a number of the friends of the Orphanage over the State, unsolicited, sent us a thank-offering. This has moved us to ask that this Thanksgiving be made a day in which the Florida Baptist Orphanage will be remembered with an offering. Nothing can be more suitable than a Thanksgiving to send gifts to orphanages. Where services are held on that day a collection taken and sent to the poor is certainly pleasing to our Father.

Where services are not held offerings sent by individuals is an act of worship.

Please remember us with a thank-offering. R. M. BEAN,

MID-WINTER FAIR OPENED AT TAMPA

Florida's Greatest State Exposition Now in Full Blast.

THIRTY COUNTIES ARE THERE

Governor Broward Conducted the Opening Exercises—Grand Parades Were Features—Reception at the Tampa Bay Hotel a Brilliant Affair.

Tampa, November 15.—The great Florida State Fair opened in this city today with a record-breaking attendance, in spite of which everybody was well taken care of, owing to the systematic work carried on by the Bureau of Information. No trouble will be experienced in this regard through the Fair. Governor Broward conducted the opening exercises, assisted by many of the prominent men of Florida and other States. Features of the day were two grand parades in the morning and a grand reception and banquet to the newspaper editors and legislators of Florida, held at the famous Tampa Bay Hotel. Over thirty counties are represented by exhibits at the Fair, a larger number than have ever been represented at a Southern State Fair before.

NEWS OF CITY AND COUNTY CONDENSED

J. A. J. Strickland of Hague was trading in the city yesterday. Mr. Strickland has a large acreage in sugar cane and his syrup has a fine reputation among good judges. He expects to begin grinding in a short time and invites his friends.

W. R. Thomas has a change of advertisement in this issue to which attention is called. He is now in Kentucky, where he is using his best judgment in the selection of a carload of horses and mules which he proposes to offer to the people of this section.

Attention is called to the change of advertisement of the Gainesville Furniture Company, which appears elsewhere in this issue. This company is offering some fine values in beds for a limited time, and those in need of such goods would do well to investigate.

BOARD OF CONTROL WILL INVITE BONDS

Architects to Furnish Plans and Specifications to Contractors.

WILL ANSWER QUO WARRANTO

Attorney-General Ellis to Represent the Board in Proceedings—Gainesville Meeting Postponed to December 11th—Board Then to Receive Bids.

At the regular monthly meeting of the State Educational Board of Control held in this city yesterday considerable business was transacted and the board was in session nearly all day, says The Jacksonville Times-Union of Tuesday, Nov. 14th.

The members of the board in attendance were Chairman N. P. Bryan, in whose office the meeting was held; J. G. Kellum, secretary, A. L. Brown of Eustis, P. K. Yonge of Pensacola and N. Adams of White Springs.

Mr. W. A. Edwards of the firm of Edwards & Walter, architects, of Columbia, S. C., the successful bidders on the plans for the University buildings, was also present at the meeting and the board spent considerable time conferring with Mr. Edwards in regard to the best plans for securing bids for the erection of the buildings that it has been decided to construct at once.

It was finally agreed that the firm of architects should insert an advertisement in the daily papers inviting contractors to apply to the architects for plans and specifications upon which to submit bids.

Gainesville Meeting Postponed.

The meeting of the board, which had formerly been agreed upon to be held November 24th in Gainesville for the purpose of receiving and considering bids for the construction of the buildings, has been postponed until December 11th. On that date the board will meet in Gainesville and open bids for the construction of buildings in accordance with the plans and specifications furnished the bidders by the architects.

The details of just what these plans and specifications should consist of took up considerable time, and it was after dark last night when the meeting adjourned. Mr. Edwards left at once for Columbia and will have the advertisement prepared and inserted in The Times-Union in a day or two.

All Institutions Doing Nicely.

Secretary Kellum read reports from the various institutions over which the board has jurisdiction and these reports showed that each of the educational institutions was progressing most satisfactorially and that the attendance was quite large. The reports were very satisfactory to the members of the board.

Board Will Answer Quo Warranto.

One matter that was taken up and discussed at great length was that of the quo warranto proceedings instituted in the Supreme Court to require the Board of Control to show by what authority the members of the board exercise the rights as officials of such board.

As this is a move to test the constitutionality of the Buckman bill, under which the Board of Control was created and all the existing State educational institutions were abolished, the Board of Control has decided to defend the suit. The Attorney-General, Hon. William H. Ellis, will represent the board and will probably be assisted by one or more attorneys selected by the board for that purpose.

The writ of quo warranto issued out of the Supreme Court is made returnable November 23, and on that date several members of the board will appear personally before the Supreme Court with their counsel.

While all the members of the board appear to be confident that the Buckman bill creating the Board of Control will be held to be constitutional, they are annoyed that the proceedings should be brought at this late day, just as the board was about ready to advertise for bids for the erection of some of the buildings for the State University.

It is feared that the uncertainty of the matter may have a tendency to influence bidders for the construction of the buildings.

After spending the entire day discussing such matters as the above the meeting adjourned until December 11, when a meeting will be held in Gainesville.

BABY'S FACE MASS OF SORES

Ears Looked as if They Would Drop Off—Body Entirely Covered with Humor—Three Doctors Could Not Cure—Child Grew Worse.

CURED BY CUTICURA IN TWO WEEKS

Mrs. George J. Steese, of 701 Coburn St., Akron, Ohio, tells in the following letter of another of those remarkable cures of torturing, disfiguring skin humors daily made by Cuticura Soap, assisted by Cuticura Ointment, after physicians, and all else had failed: "I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was eaten away, her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of soap and box of ointment the sores had all healed, and my little one's face and body was as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents, which is all it cost us to cure our baby, after spending many dollars on doctors and medicines without any benefit whatever."

SLEEP FOR BABIES

Rest for Mothers.

Instant relief and refreshing sleep for skin-tortured babies, and rest for tired, fretted mothers, in warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, the great skin cure, and purest of emollients.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Potter Drug & Chem. Corp., Boston, Sole Props. Send for "How to Cure Baby Humors."

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

Off to Jacksonville.

Hons. Walter G. Robinson and Henry S. Chubb, register and receiver of the United States land office, left Tuesday for Jacksonville, where they attended an important meeting of the Florida State Central Committee, of which Col. Chubb is chairman. Messrs. Robinson and Chubb are among the leading Republicans of the State, and have been very active, as well as successful, in politics.

Constipation.

Health is absolutely impossible if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. M., Bronson, Fla., writes, Feb. 12, 1902: "Having used Herbine, I find it a fine medicine for constipation." 50c a bottle. Sold by W. M. Johnson.

BIG NAVAL STORES DEAL.

J. J. Haymans and T. J. Shaves Have Purchased Big Plant.

J. J. Haymans, the naval stores operator of Lochlocsa, and T. J. Shaves of Eau Gallie, have purchased the interests of the Yulee Naval Stores Company at Yulee, near the Georgia line, between Waycross and Jacksonville, for which they paid $90,000.

This farm contains thirteen crops, with five thousand acres of round timber, or a sufficient quantity to cut twenty more crops or 200,000 boxes.

Mr. Haymans, who was in the city Tuesday, operates one of the largest and most successful naval stores farms, of twenty-three crops, at Lochlocsa. He declares he will make seven hundred barrels of turpentine under fair conditions this year, which means a pile of money.

Mr. Haymans does not intend to leave this part of the country. The business at Yulee will be under the management of T. J. Shaves.

NEGRO CONFESSED TO HEINOUS CRIME

Pleaded Guilty to Assaulting White Woman Near Atlanta

WILL HANG ON DECEMBER 8TH

The Large Crowd Which Surrounded the Court House Was Quiet and Orderly and Seemed Satisfied With the Outcome of Trial.

Atlanta, Nov 14.—To the intense surprise of the great crowd of spectators, the court, and Solicitor Hill, Jim Walker, the negro arraigned for trial before Jurge Roan Monday morning on the charge of having criminally assaulted Mrs. G. W. Moore, at Brookwood last Thursday two weeks ago, pleaded guilty to the indictment.

"Perhaps he doesn't understand," remarked Solicitor Hill, after the indictment had been read to the prisoner.

"Oh, yet, he does," replied Judge Van Epps, of Walker's counsel. "He has confessed."

Walker himself reiterated the confession, and after his counsel had explained to the court the effort it had made in the negro's behalf, and how it had urged him not to confess, having pointed out that he would be hanged, and the negro still persisted, Walker reiterated his confession when he stood before Judge Roan.

Judge Roan then sentenced Walker to hang on December 8. He spoke of the splendid way that the spectators had restrained themselves, and how quickly justice had been meted out.

Throughout Walker, or Brice, showed no emotion. While seated his head hung over limply on his shoulder. As his counsel explained, he was perfectly dull and stupid. The import of the judge's terrible words seemingly made no impression.

Mr. and Mrs. Moore sat through the trial. Mrs. Moore was heavily veiled, and showed keenly the effects of the terrible ordeal she had been through. Neither Mr. Moore nor his sons, Cliff and John, made any sort of demonstration. They pronounced themselves as eminently satisfied.
